

This could be your view.

This could be you.

Get urban EMS experience and live in a city that has fantastic views of Manhattan. Join us at the Jersey City Medical Center's EMS Department in Jersey City, NJ. Here you'll get experience in your first year that would take 5 to 10 years in a suburban EMS organization.

As one of the largest & busiest EMS systems in the state, we triage, treat and transport more than 80,000 patients a year! We play a vital role in domestic preparedness education, homeland security response and educating the public and healthcare providers in CPR.

Contact Steve Cohen at 201.395.5090 or scohen@libertyhcs.org.
