

## Urban experience. Minutes from Manhattan.

### Want urban EMS experience?

Are you looking to get urban EMS experience and live in a city that is thriving like no other in the U.S.? What better place to be than at the Jersey City Medical Center's EMS Department in Jersey City, NJ. Here, you will gain experience in your first year that would take five to ten years in a suburban EMS organization.

JCMC EMS is a fast-paced, dynamic service that includes 9-1-1 Basic and Advanced Life Support, a Special Operations Division, Regional EMS Communications Center, an EMS Training and Simulation Center, and much more. As one of the largest and busiest EMS systems in the state, JCMC EMS now triages, treats and transports more than 80,000 patients a year!

### Want to become a Paramedic?

Our Program for Pre-hospital Medicine at JCMC is a two-year course of study, leading to an Associates Degree in Applied Science from Hudson County Community College. It is designed to provide you with the cognitive and psychomotor skills that are essential in performing the duties of an EMT-Paramedic.
