

# Neck pain can stop you dead in your tracks.

It may be progressive, or it can happen without warning. One minute you're gardening, playing golf, or lifting a package. The next minute, *you're in agony*.

Whether it's due to a congenital problem, a deteriorating condition or a sudden injury – we can help. At the Comprehensive Spine Institute of New Jersey, our team of board certified spine specialists offers a comprehensive and multi-disciplinary approach to alleviate your pain and return you to normal activities as soon as possible.
